OUR CONFERENCES:

ABOUT US

We are recognized as the leading company in our sector, highlighted not only by our extensive experience organizing high standard business events around the globe but also by our commitment and dedication to providing unmatched and unforgettable experiences for business leaders.

We host exclusive business to business meetings tailored to meet the urgent needs of leaders, providing valuable insights and strategic connections.

Team of outstanding professionals with international experience, solid backgrounds in multidisciplinary fields and highly qualified to design exclusive, safe and positive environments for each event. With a network of partners, market analysis, and industry expertise, we've successfully hosted events across various sectors.

ABOUT THE CONGRESS

The **InventU Fuel Evolution Congress**, taking place on 16-17 September 2025 in Berlin, Germany, brings together industry leaders, innovators, and decision-makers to explore the future of sustainable fuels.

Featuring four dedicated streams: Biofuels, Sustainable Aviation Fuels and Sustainable Maritime Fuels and Biogas. Congress offers a platform for high-level discussions, knowledge exchange, and strategic networking.

Attendees will gain valuable insights into the latest advancements, regulatory trends, and practical solutions driving the global transition toward greener and more resilient fuel ecosystems. Join us to connect with peers, learn from industry pioneers, and contribute to shaping a sustainable energy future.

MEET THE ENTIRE VALUE CHAIN

Fuels, Energy & Feedstock Producers

Fuels Users and their logistics

Service and solution providers and suppliers

Gov. Edu. NGO, Assoc. Stakeholders

Traders & Finance

TESTIMONIALS

EC

Very satisfied. The Forum was very well organised, with a very detailed and well designed programme, the venue was fantastic and the speakers as well.

★★★★★

BASF SE

Yes, good representation of the market with a broad view on several players along the value chain. Very nice location with good food and enough space for breakouts etc.

★★★★★

TotalEnergies

Very interesting presentation and networking possibilities.

★★★★★

ARKEMA

It has been a great seminar, combining the quality of the presentations with nice exchanges with other attendees during breaks.

★★★★★

British Airways

It was really educational and useful in terms of networking.

★★★★★

Nordsol

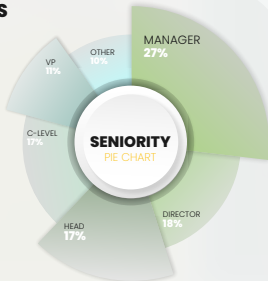

The organization of the forum was very professional and the location was excellent. There was a good balance between networking and insightful presentations.

★★★★★

AGENDA

5th Biofuels **Forum**

08.00 Registration

08.50 Opening Remarks from the Chairperson

09.00 SESSION I: NAVIGATING BIOFUELS REALITIES WITH POLICY, SUSTAINABILITY AND MARKET DYNAMICS

KEYNOTE Progress, Economics & Public Perception

- State of biofuels and progress made where do we stand in 2025?
- Is the market truly ready, considering willingness to pay and social acceptance?
- Balancing ambition with economic realities – What's the pragmatic way forward?

Niels Anspach
Vice President biofuels value chain
BP

Panel discussion: Bridging Supply, Demand Regulatory Gaps

- Can biofuels scale fast enough, or are we heading toward a supply crunch?
- Union Database – A step toward transparency or an industry bottleneck?
- The future of crop-based biofuels and what's next for EU regulations?

Dickson Pasnett
Director of Corporate Affairs
Argent Energy

ARGENT ENERGY

*more panelists will be announced soon

10.15 Morning Break

11.00 SESSION I (continue): NAVIGATING BIOFUELS REALITIES WITH POLICY, SUSTAINABILITY AND MARKET DYNAMICS

Policy Perspective: The RED Framework – Clarity or Complexity?

- How is RED II shaping the European biofuels landscape?
- Compliance vs. feasibility – Are targets realistic for industry players?
- What adjustments or expansions could be on the horizon?

Topic To Be Announced

205

Panel Discussion: RED Transposition – Member States' Challenges & Realities

- How are different EU member states transposing RED II into national regulations?
- What hurdles do national regulators face in aligning with EU targets and local realities?
- Can regional differences impact the uniformity of RED II's implementation across Europe?
- Is the Crop Cop still the right thing to do?

Mediated by
Olivier Mace
Principal
Breadbasket
*more panelists will be announced soon

12.15 Lunch Break, Networking & Meet the Exhibitors

COMBINED SESSIONS: BIOFUELS AND SAF STREAM:

13.45 SESSION II: THE ROAD AHEAD: SAF & BIOFUELS TOGETHER

Obstacles in Ensuring a Stable and Cost-Effective Feedstock Supply

- A growing demand with limited supply – an overview of the market situation
 - Biofuels' eligibility under RED II
 - How can RED and ReFuelEU be aligned for a sustainable SAF ecosystem?
- Tom Berg
Team Lead EU Policy and Sustainability
SKYNRG

Panel discussion: Privileges or Not: Who Gets Priority?

- How do RED and ReFuelEU challenge the SAF market balance?

*panelists will be announced soon

15.00 Afternoon Break

15.45 SESSION II continue: THE ROAD AHEAD: SAF & BIOFUELS TOGETHER

Which Advanced Biofuels Could be Scaled up More?

- What's slowing down the scale-up?
- The role of industrial partnerships
- Coexisting with multiple solutions or losing the 'game'?

Invited to present:
Enliva

Panel Discussion: True Collaboration in the Eco-System – SAF & CAF in the Fuel mix

- What's the right strategy?
- Bridging the supply-demand gap and providing a steady supply

Jonathan Counsell
Chief Sustainability Officer
IAG Group

*more panelists will be announced soon

Continuing in separate conference rooms

17.00 Closing Remarks from the Chairperson

End of Day I

08.50 Opening Remarks from the Chairperson

10.40 Morning Break

09.00 **COMBINED SESSIONS: BIOFUELS AND MARITIME STREAM**

11.25 **SESSION IV: BIOFUELS IN MOTION - ACCELERATING THE PATH TO GROUND TRANSPORTATION FUELS**

How to Ensure Operational Efficiency and Compliance with FAME-based Fuels?

- What are the opportunities and limitations for Widespread FAME Adoption in Shipping Fleets?
- How can we overcome the challenges of scaling FAME production and supply?
- What role do FAME blends (B30, B10) play in reducing maritime emissions?

Invited to present:
Argent Energy

ARGENT ENERGY

Certification & Guarantee of Origin - Ensuring Transparency and Trust in Biofuels

- Navigating certification in a global context: Who will verify sustainability under IMO regulations?
- How can we prevent double counting and minimise the risk of irregularities and greenwashing?

Exploring Bio-Ethanol's Role as a Marine Fuel: Opportunities, Myths, and Practical Considerations

- Debunking ethanol fuel myths and understanding its potential in shipping
- What strategies ensure ethanol's stability, storage, and long-term viability in maritime environments?
- Overcoming engine compatibility challenges for ethanol use

David Caprinero
Director General
ePURE
Morten Jacobsen
CEO
ETHANAVE

ePURE
ETHANAVE

Panel Discussion: How Critical are Biofuels on the Route to Marine Decarbonization? Are They Just a Transitional Fuel or Here to Stay?

- How can the shipping industry secure a stable and scalable biofuel supply?
- What mechanisms can create a level playing field for increasing biofuel adoption in shipping?
- How can fuel producers, shipowners, and policymakers work together to accelerate adoption?

Panelists:
Capt. Samir Fernandez
Director - Marine Fuel Solutions and Trading
MOEVE

moeye

Invited to present:
CMA CGM

CMA CGM

Invited to present:
EWEBA

ewebe

Driving the Future of Ground Transportation

- Market development, progress, and challenges in scaling biofuel production
- What's preventing the widespread adoption of biofuels - is it cost, infrastructure, or another obstacle?
- What key innovations or policy shifts could unlock the full potential of sustainable biofuels in Europe?

What is the best way to decarbonize the agricultural sector in Europe?

- What role can biofuels play in decarbonizing agriculture?
- Innovations and technological advancements to reduce emissions in agriculture

Panel Discussion: A Vision for 2030+

- Long-term vision and what a clear roadmap to 2030+ would look like
- Challenges and opportunities in biofuel scaling beyond 2030: What needs to happen?

Gregor Trieb
Business Development & Public Affairs
Volvo Group Trucks Central Europe GmbH
Annabel York
Biofuels Value Chain Senior Manager Europe
BP

VOLVO

*more panelists will be announced soon

13.05 Closing Remarks from the Chairperson

13.10 Lunch & Networking

14.30

End of Conference

Continuing in separate conference rooms

A white commercial airplane is shown from a top-down perspective, flying over a green landscape. The plane is white with blue accents on the tail and engines. The background is a solid green color.

4th Sustainable Aviation Fuels Forum

08.00 Registration

08.50 Opening Remarks from the Chairperson

09.00 **SESSION I: FUELING THE FUTURE: SEIZING OPPORTUNITIES AND LEADING THE SAF TRANSFORMATION**

KEYNOTE Setting the Scene

- State of the SAF and progress made in 2025
- Reality vs. Ambition and are we falling behind?
- Scaling Up: Vision, challenges and call to action

Alexander Kuiper
Vice President, Renewable Aviation Business
Neste

How is the 1st Year with the Mandates Going?

- Fuel producers under pressure – are they ready to scale production to meet EU demand?
- Short-term costs vs. long-term benefits: How are stakeholders planning for the future?
- How are they passing on the cost for the SAF under the ReFuelEU

How are Different EU Member States Implementing the ReFuelEU Mandates?

- Implementation hurdles: What challenges do national regulators face in enforcing the ReFuelEU mandates?

10.15 Morning Break

11.00 **SESSION I (continue): FUELING THE FUTURE: SEIZING OPPORTUNITIES AND LEADING THE SAF TRANSFORMATION**

Demystifying eSAF: Technologies and Projects to 2030

- Breaking down the key e-SAF production pathways – a technological overview
- Mapping e-SAF projects in Europe—who is leading the charge?

Tom Garmeson
Director Business Intelligence & Research / Business Development
Cox Energy

Financial Gaps & Conditions to Reach FIDs – eSAF Status

- Will producers actually invest?
- Long-term offtake agreements and it's time to act
- Rethinking project locations?

Laurent Dancos
Director, Transport and Industrial Policy & Sustainability
Hydrogen Europe

Reserved for Sponsor

12.15 Lunch Break, Networking & Meet the Exhibitors

COMBINED SESSIONS: BIOFUELS AND SAF STREAM:

13.45 **SESSION II: THE ROAD AHEAD: SAF & BIOFUELS TOGETHER**

Obstacles in Ensuring a Stable and Cost-Effective Feedstock Supply

- A growing demand with limited supply – an overview of the market situation
- Biofuels' eligibility under RED III
- How can RED and ReFuelEU be aligned for a sustainable SAF ecosystem?

Tom Berg
Team Lead EU, Policy and Sustainability
SKYNRG

Panel discussion: Privileges or Not: Who Gets Priority?

- How do RED and ReFuelEU challenge the SAF market balance?

*panelists will be announced soon

15.00 Afternoon Break

15.45 **SESSION II continue: THE ROAD AHEAD: SAF & BIOFUELS TOGETHER**

Which Advanced Biofuels Could be Scaled up More?

- What's slowing down the scale-up?
- The role of industrial partnerships
- Coexisting with multiple solutions or losing the 'game'?

Invited to present:
Enliva

Panel Discussion: True Collaboration in the Eco-System – SAF & CAF in the Fuel mix

- What's the right strategy?
- Bridging the supply-demand gap and providing a steady supply

Jonathan Counsell
Chief Sustainability Officer
IAG Group

*more panelists will be announced soon

Continuing in separate conference rooms

17.00 Closing Remarks from the Chairperson

End of Day I

08.50 ● Opening Remarks from the Chairperson

09.00 ● SESSION III: CLEARING THE PATH: THE ECONOMICS, LOGISTICS & REALITIES OF SAF GROWTH

Setting the Scene Day 2

- How could divergent regulations hinder the scaling of SAF?
- Why is harmonization essential?
- Why is a global approach to SAF standards important to avoid fragmentation?

Bettina Paschke
VP ESG Accounting, Reporting & Controlling
DHL

SAF Pricing: Navigating the Cost-Competitiveness Gap

- What role do government policies play in driving down the cost?
- Will airlines pass on these costs to consumers, or will they absorb the increase?
- SAF pricing evolution and predictions
- When will SAF be price-competitive?

Sophie Byran
Global Head of Pricing
S&P Global

The Good, The Bad and The Scale-up

- Is this the game-changer in SAF production?
- Diving into capacity limitations in scaling up potentials
- Integrating waste feedstocks: Can this model be replicated globally?

Reserved for Sponsor

10.40 ● Morning Break

11.25 ● SESSION IV: CLEARING THE PATH: THE ECONOMICS, LOGISTICS & REALITIES OF SAF GROWTH

Airlines & SAF – Commitment and Compliance

- How reliable is the SAF supply chain?
- Price shocks, management and consumer reaction
- Ensuring the accuracy and validity of SAF credits to maintain credibility
- How can the aviation sector improve transparency and reliability in emissions accounting?

The Role of ICAO and Industry Leadership in Scaling SAF

- ICAO's current efforts and future plans to incentivise SAF adoption.
- IAG's journey to becoming the largest SAF buyer in 2024—strategy and key decisions.
- Business case insights: Who deals with SAF?

Jonathan Counsell
Chief Sustainability Officer
IAG Group

Panel Discussion: Non-CO₂ Effects and the Role of SAF in Mitigating Aviation's Full Environmental Impact

- How is SAF helping?
- What else do we need to do?

*panelists will be announced soon

13.05 ● Closing Remarks from the Chairperson

13.30 ● Lunch & Networking

14.30

● End of Conference

4th Biogas Forum

08.00 Registration

08.50 Opening Remarks from the Chairperson

09.00 SESSION I: REGULATIONS, TARGETS, FEEDSTOCK & THE UDB PUZZLE

Analyzing the Regulatory Landscape – Targets & Drivers

- RePowerEU: achievable targets or wishful thinking
- Biomethane's place in the RED III
- Overview of the regulations surrounding biogas/ biomethane

Current and Future Feedstock of Biogas Production

- Overview of feedstock availability
- Is the food vs non-food debate for crops ethical or a genuine concern over availability?
- Alternative feedstocks as a mechanism for combatting demand of traditional feedstocks

Panel Discussion: Second Coming of the UDB – The Good, the Bad, and the Ugly

- Evaluating the impact of the UDB on the industry
- Lessons learned and challenges ahead

Kateryna Dolshenko
Regulatory Affairs Manager
Shell

Invited to present:
European Biogas Association

*More panelists will be announced soon

10.15 Morning Break

11.00 SESSION II: DRIVING GROWTH: THE BIOMETHANE ADVANTAGE PART I

Reserved for Sponsors

Scaling Up the Industry: Biogas Plants to Biomethane

- Key drivers for plant upgrades and economic viability
- Pros and cons of the different upgrading technologies
- Overcoming infrastructure and regulatory hurdles

William Sgarbi
Head of Engineering
VORN Bioenergy

Biogenic CO₂ as a Secondary Source of Revenue

- Addressing the different use cases and potential off-takers
- Certification of biogenic CO₂
- Should and can we consider auction mechanisms to promote a European or local CO₂ market?

12.15 Lunch Break, Networking & Meet the Exhibitors

13.45 SESSION II: DRIVING GROWTH: THE BIOMETHANE ADVANTAGE PART II

Panel discussion: Greening the Grid – Decarbonizing the Existing Infrastructure

- The gas infrastructure is here to stay, What now?
- Biomethane as the solution

Nicolas Spilliaert
International Project Manager
GRDF

*More panelists will be announced soon

Reserved for sponsor

15.00 Afternoon Break

15.45 SESSION III: POWERING UP WITH BIOGAS

Biogas from an Energy Company's Perspective

- How are major energy market players integrating biogas into their portfolios
 - Challenges and opportunities in scaling up adoption
- Ari Suominen
Head of Renewable Gases
Gasum

Panel Discussion: The Role of Biomethane in the Energy Transition

- What does biomethane have to offer versus other energy sources
- How do we scale up production while maintaining environmental integrity?

Moderated by:
Ari Suominen
Head of Renewable Gases
Gasum

Rasmus Bernadot
Head of Biogas
Eurowind Energy

*More panelists will be announced soon

17.00 Closing Remarks from the Chairperson

End of Day I

08.50 Opening Remarks from the Chairperson

09.00 SESSION IV: BIO-LNG/ BIO-CNG ON THE MOVE: ROAD AHEAD

To Fuel or Not to Fuel? Bio-LNG/ Bio-CNG LCA

- A deep dive into lifecycle emissions and sustainability impact
- Will biomethane fit the zero-emission fuel definition?
- What happens next?

Alberto Castagnini
Senior Technical Manager
Eurogas

Panel Discussion: The Role of Bio-LNG/ Bio-CNG in Transport – Now and the Future

- Practical applications and real-world adoption
- Policy incentives and barriers to market growth
- Comparing the role of bio-LNG/ bio-CNG in different transport sectors

Moderated by:
Alberto Castagnini
Senior Technical Manager
Eurogas

Jonas Stromberg
Sustainable Transport Business Manager
Scania Group

*More panelists will be announced soon

Reserved for sponsor

10.40 Morning Break

11.25 SESSION V: NAVIGATING CROSS-BORDER CHALLENGES IN BIOMETHANE

Facilitating Cross-Border Trading

- Key regulatory frameworks enabling international biogas trade
- GHG Quota Markets overview
- Challenges and solutions for seamless cross-border transactions

Dirk Bense
Head of Department Renewable Gases
German Biogas Association

Leveraging Certification Markets

- The role of Guarantees of Origin and other certification schemes
- What are the rules for double-counting? When is it acceptable?
- Ensuring credibility and maximizing market value

Olivia Lundgren
Head of Regulatory Intelligence
Danish Bio Commodities

12.15 SESSION VI: BIOGAS BEYOND SUBSIDIES: EXPLORING NEW BUSINESS MODELS

The Role of Biomethane as Part of the Voluntary Market

- What are the important initiatives for the biomethane voluntary market?
- Update on the revision process of the GHG Protocol and the role of biomethane
- Relevant developments within SBTi and the European Sustainability Reporting Standards

Tim Hamers
Secretary General
EBG&E

Innovative Financing & Investment Models for Biogas Projects

- Practical Purchase Agreements as a business model
- Analyzing a "what if" scenario if subsidies are discontinued
- Risk management and bankability of biogas projects

13.05 Closing Remarks from the Chairperson

13.10 Lunch & Networking

14.30 End of Conference

An aerial photograph of a large container ship sailing on a teal-colored ocean. The ship is filled with stacks of colorful shipping containers in shades of red, blue, green, and orange. Two large white cranes are visible on the deck. A dark teal banner with rounded corners is positioned at the bottom of the image, containing the event title in white and yellow text.

4th Sustainable Maritime Fuels Forum

08.00 Registration

08.50 Opening Remarks from the Chairperson

09.00 **SESSION I: GET READY FOR THE CHANGING MARITIME REGULATIONS: DECODING MEPC83, FUELEU MARITIME, AND THE FUTURE OF COMPLIANCE**

IMO's Mid-Term GHG Reduction Measures: Key Timelines, Industry Impact, and Preparation Strategies

- MEPC 83: What are the key takeaways and how will they shape compliance on compliance and fuel strategies?
- From compliance to investment: Will IMO's mid-term measures strengthen the business case for decarbonization, or will the cost of fossil fuels prevail?

How Will the EU Align FuelEU Maritime and ETS With the IMO's Global Fuel Standards?

- What role will the Clean Industrial Deal play in accelerating the adoption of sustainable maritime fuels and supporting compliance with FuelEU Maritime and ETS?
- How will the new measures impact operational costs and fuel choices for shipping companies?
- How can stakeholders prepare for long-term compliance and future-proof their operations?

Panel discussion: How Are Policies Affecting the Uptake of Alternative Marine Fuels? Are Global Regulations Helping or Hindering the Transition?

- Global vs. regional regulations: How to navigate compliance across markets?
- How can policies drive technological advancements in alternative fuels?
- Regulation 2030+ and beyond: What to expect from RED IV and future global maritime regulations?

Invited to present:
International Chamber of Shipping

Invited to present:
BIMCO

10.15 Morning Break

11.00 **SESSION II: NAVIGATING MARKET DYNAMICS: HOW TO SCALE UP PRODUCTION, CLOSE THE PRICE GAP AND STAY COMPLIANT WITH EMISSIONS TARGETS**

Panel Discussion: Scaling Sustainable Fuels for a Net-Zero Maritime Future

- How can the maritime industry accelerate the adoption of alternative fuels to meet decarbonization targets?
- What are the key factors investors seek when considering maritime fuel projects?
- How can stronger regulatory frameworks help mobilize the necessary green investment?

Topic TBA

Air Products

Panel Discussion: How Economically Viable Are Green Marine Fuels?

- How can we ramp up the supply and demand, reduce costs and bridge the price gap for sustainable fuels?
 - Developing a marketplace for sustainable fuels: Where are we now and what still needs to be done?
 - What role will government support play in incentivizing sustainable fuel adoption?
 - Fuel prices forecast: What trends can we expect over the next 5-10 years?
- Panelists:
Torben Nergaard
Chief Technology Officer - Energy & Fuels
Marx Mc-Kinney Miller Center for Zero Carbon Shipping

12.15 Lunch Break, Networking & Meet the Exhibitors

13.45 **SESSION II: NAVIGATING MARKET DYNAMICS: HOW TO SCALE UP PRODUCTION, CLOSE THE PRICE GAP AND STAY COMPLIANT WITH EMISSIONS TARGETS (continues)**

Panel Discussion: Building the Fuel Infrastructure: Are We Ready for the Transition?

- Scaling up infrastructure: What investment priorities and technical challenges need to be addressed?
- How can ports and bunkering infrastructure evolve to support new fuels?
- Are green corridors the key to meeting growing global demand for sustainable marine fuels?

Panelists:
Valérie Ahrens
Senior Director - New Fuels and Carbon Markets
Bunker Holding A/S

Hari Dattatreya
Senior Vice President Energy Markets and Asset Transition
Vopak

Invited to present:
Maritime and Port Authority of Singapore

Reserved for sponsor

Panel Discussion: Compliance in Focus - How to Meet Maritime Decarbonization Targets and Future-Proof Maritime Operations?

- Ensuring accuracy in emissions accounting: What best practices and technologies can enhance reliability?
- Leveraging the Book & Claim model to stay compliant
- How can pooling mechanisms help shipowners and operators reduce compliance costs and share decarbonization risks?

Invited to present:
Smart Freight Centre

15.00 Afternoon Break

15.45 **SESSION III: WHAT ROLE WILL BioLNG AND e-LNG PLAY IN THE MARITIME ENERGY TRANSITION?**

Unlocking BioLNG's Potential for Maritime Application

- How can we expand production capacity to meet growing demand?
- Do methane leaks undermine the climate benefits of bioLNG?
- What are the best strategies for prevention
- How to verify sustainability claims under mass balance and avoid greenwashing?

Invited to present:
Gasum

e-LNG: The Future of Synthetic Fuels in Maritime Decarbonization

- e-LNG production feasible and cost-competitive at scale?
- What role do renewable energy and carbon capture technologies play in the production of e-LNG?
- Integrating e-LNG into existing LNG infrastructure for a seamless transition

Panel Discussion: BioLNG and e-LNG - A Pathway to Decarbonization or a Niche Solution?

- What does the global order book reveal about the shipping industry's decarbonization plans?
- How can infrastructure and bunkering developments accelerate bioLNG and e-LNG adoption?

Panelists:
Frederic Meyer
Strategy and Decarbonization Director
TotalEnergies Marine Fuels

17.00 Closing Remarks from the Chairperson

End of Day I

08.50 Opening Remarks from the Chairperson

10.40 Morning Break

COMBINED SESSIONS: BIOFUELS AND MARITIME STREAM

09.00 SESSION IV: BIOFUELS PAVING THE WAY TOWARD SUSTAINABLE SHIPPING

How to Ensure Operational Efficiency and Compliance with FAME-based Fuels?

- What are the opportunities and limitations for Widespread FAME Adoption in Shipping Fleets?
- How can we overcome the challenges of scaling FAME production and supply?
- What role do FAME blends (E30, B10) play in reducing maritime emissions?

Invited to present:
Argent Energy

ARGENT ENERGY

Certification & Guarantee of Origin – Ensuring Transparency and Trust in Biofuels

- Navigating certification in a global context: Who will verify sustainability under IMO regulations?
- How can we prevent double counting and minimise the risk of irregularities and greenwashing?

Exploring Bio-Ethanol's Role as a Marine Fuel: Opportunities, Myths, and Practical Considerations

- Debunking ethanol fuel myths and understanding its potential in shipping
- What strategies ensure ethanol's stability, storage, and long-term viability in maritime environments?
- Overcoming engine compatibility challenges for ethanol use

David Carpintero
Director General
ePURE
Morten Jacobsen
CEO
ETHANAVE

ePURE
ETHANAVE

Panel Discussion: How Critical Are Biofuels on the Route to Marine Decarbonization? Are They Just a Transitional Fuel or Here to Stay?

- How can the shipping industry secure a stable and scalable biofuel supply?
- What mechanisms can create a level playing field for increasing biofuel adoption in shipping?
- How can fuel producers, shipowners, and policymakers work together to accelerate adoption?

Panelists:
Capt. Samir Fernandez
Director - Marine Fuel Solutions and Trading
MOEVE

moeye

Invited to present:
CMA CGM

CMA CGM

Invited to present:
EWABA

ewaba

11.25 SESSION V: METHANOL AND AMMONIA – POWERING THE FUTURE OF SHIPPING: NOT A MATTER OF “IF”, BUT “WHEN”

Methanol-Powered Vessels: Lessons Learned so Far

- How does methanol compare in real-world operations in terms of carbon footprint and lifecycle emissions?
- Retrofit vs. Newbuild: What are the most feasible pathways for fleet transition?

Invited to present:
Maersk Tankers

MAERSK
TANKERS

Ecopanta: Repsol's Innovation in Renewable Fuels for the Maritime Sector

Oscar Sastre Vela
Senior Manager Commercial Strategy Renewable Fuels
and Circular Economy
Repsol

REPSOL

Ammonia for Shipping: How Soon, How Safe, How Scalable?

- What is the potential and availability of ammonia for future maritime applications?
- Safety, storage and supply chain challenges that need to be addressed when using ammonia as a marine fuel
- Ammonia engine development: How close are we to commercial-scale deployment?

Invited to present:
F. Loebe

F. LOEBE

Panel discussion: Methanol & Ammonia: Are We Ready for the Next Wave of Maritime Fuels?

- Scaling green ammonia and methanol production: Key challenges and opportunities
- What role will regulators play in accelerating methanol and ammonia adoption?
- The fuel or the infrastructure, what comes first?

Panelists:
Philipp Kroepele
Director New Energy
Mabanolt

MABANOLT
HOEGH AUTOLINERS

13.05 Closing Remarks from the Chairperson

13.10 Lunch & Networking

14.30 End of Conference

Continuing in separate conference rooms

NETWORKING DRINKS RECEPTION

Enjoy our Networking Drinks session where you can forge lasting connections, exchange ideas, explore collaborative opportunities, and unwind in celebration!

Connect with like-minded individuals and industry leaders from diverse backgrounds as you mingle and network over refreshing drinks.

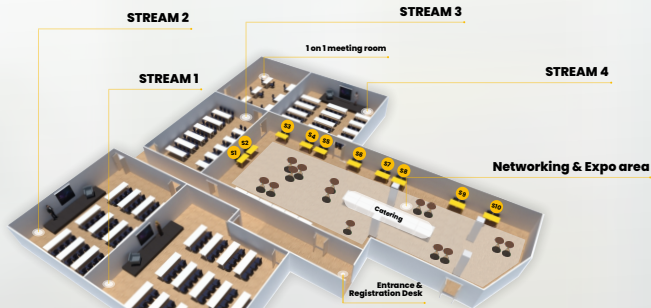

Discover potential partnerships and collaborations that can drive growth and innovation in a relaxed and welcoming environment. Toast to a successful day of learning and growth while enjoying drinks and appetizers in a vibrant atmosphere, surrounded by fellow professionals eager to connect and celebrate together.

Share your experiences, challenges, and successes with peers to gain valuable insights and perspectives, fostering meaningful connections and new ideas.

- Access to Networking Lounge & Expo Area
- Account for the Digital App (for easier communication with all other attendees)

- Access to the dedicated 1-on-1 meetings area
- All the meals and refreshments during the 2 days
- Pass to the exclusive Networking Drinks Reception
- Online documentation package.

TERMS AND CONDITIONS

INVENTU GLOBAL S.R.O.: Read these Terms and Conditions ("Terms", "Terms & Conditions") carefully before registering to any of our events.

These Terms and Conditions are related to the services provided by Inventu Global s.r.o., Reg.No. 09586558, recorded in the Commercial Register administered by the Municipal Court in Prague, section C, insert 338594. Inventu Global s.r.o. in further text referred as ("We", "us", "our") is an organizer of senior-level, industry-specific business events.

PAYMENT TERMS: Clients can register for our events online through our website [inventu.eu](https://www.inventu.eu) or by sending a signed booking form. Once the registration is received, payment is expected in up to 5 working days. For registrations within 5 days before the event, payments must be received before the event date.

CANCELLATION, POSTPONEMENT, AND SUBSTITUTION POLICY: Cancellations received up to 4 weeks before the event will result with 50% refund from the registration fee. Cancellations received within 4 weeks from the event dates and non-attendance are non-refundable.

All registrations are transferable to any person within the same organization that paid for the participation, free of charge up to 1 week before the event dates. Clients unable to attend can inform us up to 2 weeks before the event dates, and we may provide a full Credit Note with a validity of 12 months from the day of the event they registered for. The Credit Note can be used as a registration fee for any event we organize. In case the Client would like to receive the Online Documentation Package from the event, the Credit Note will be minus the value of the Online Documentation Package.

Due to various force majeure, we cannot be held responsible for cancellations and replacements of Speakers. For the same reasons we cannot be held responsible for cancellations, replacements or postponements of events. We cannot be held responsible for any expenditures. Clients can have connected to our events. However, we take responsibility to inform all participants on time and to take necessary measures to avoid such situations. In an unfortunate scenario that event is postponed or canceled, we will provide Credit Note with validity of 12 months.

COPYRIGHT: We hold the complete authority of our data and content and everything we publish on our site. We can file a legal suit in case of data copyright issues. All intellectual property rights of all the materials produced or distributed by us in connection with the event are expressly reserved and any unauthorized duplication, publication, or distribution is prohibited.

DATA PROTECTION: By registering for our events, speakers, delegates, and sponsors agree to share their details (Full Name, Job Title, Company, Business Email) with us to coordinate their participation, payment, and attendance at the event. For networking purposes, these details will be shared with the other speakers, delegates, and sponsors. After the event, these details will be used by us for further promotion of future events. If they wish their details to be removed from our storage after the event they can contact us at datainventu.eu and request full removal.

ADMINISTERING LAW: This Agreement will be represented and interpreted as per the law of the Czech Republic under the Jurisdiction of the Czech Courts in Prague. For any legal dispute, we will use the courts in the Czech Republic where the company is registered.

IF YOU HAVE ANY QUESTIONS OR CONCERN REGARDING OUR TERMS & CONDITIONS YOU CAN CONTACT US RIGHT AWAY.

VENUE

Mercure Hotel MOA Berlin

The Mercure Hotel MOA Berlin is ideally situated in the heart of the capital, offering seamless access to Berlin's vibrant city life. It is conveniently situated near public transport options, making it easy to reach Berlin's major attractions, business hubs, and cultural landmarks. The hotel is also close to Berlin Hauptbahnhof (Central Station) and provides quick access to Tegel Airport (formerly, now BER - Berlin Brandenburg Airport) and famous sites like the Brandenburg Gate, Reichstag, and Kurfürstendamm shopping boulevard.

Stephanstraße 41,
10553 Berlin, Germany
